Discover **Elegance**

Welcome to a new vision of luxury.

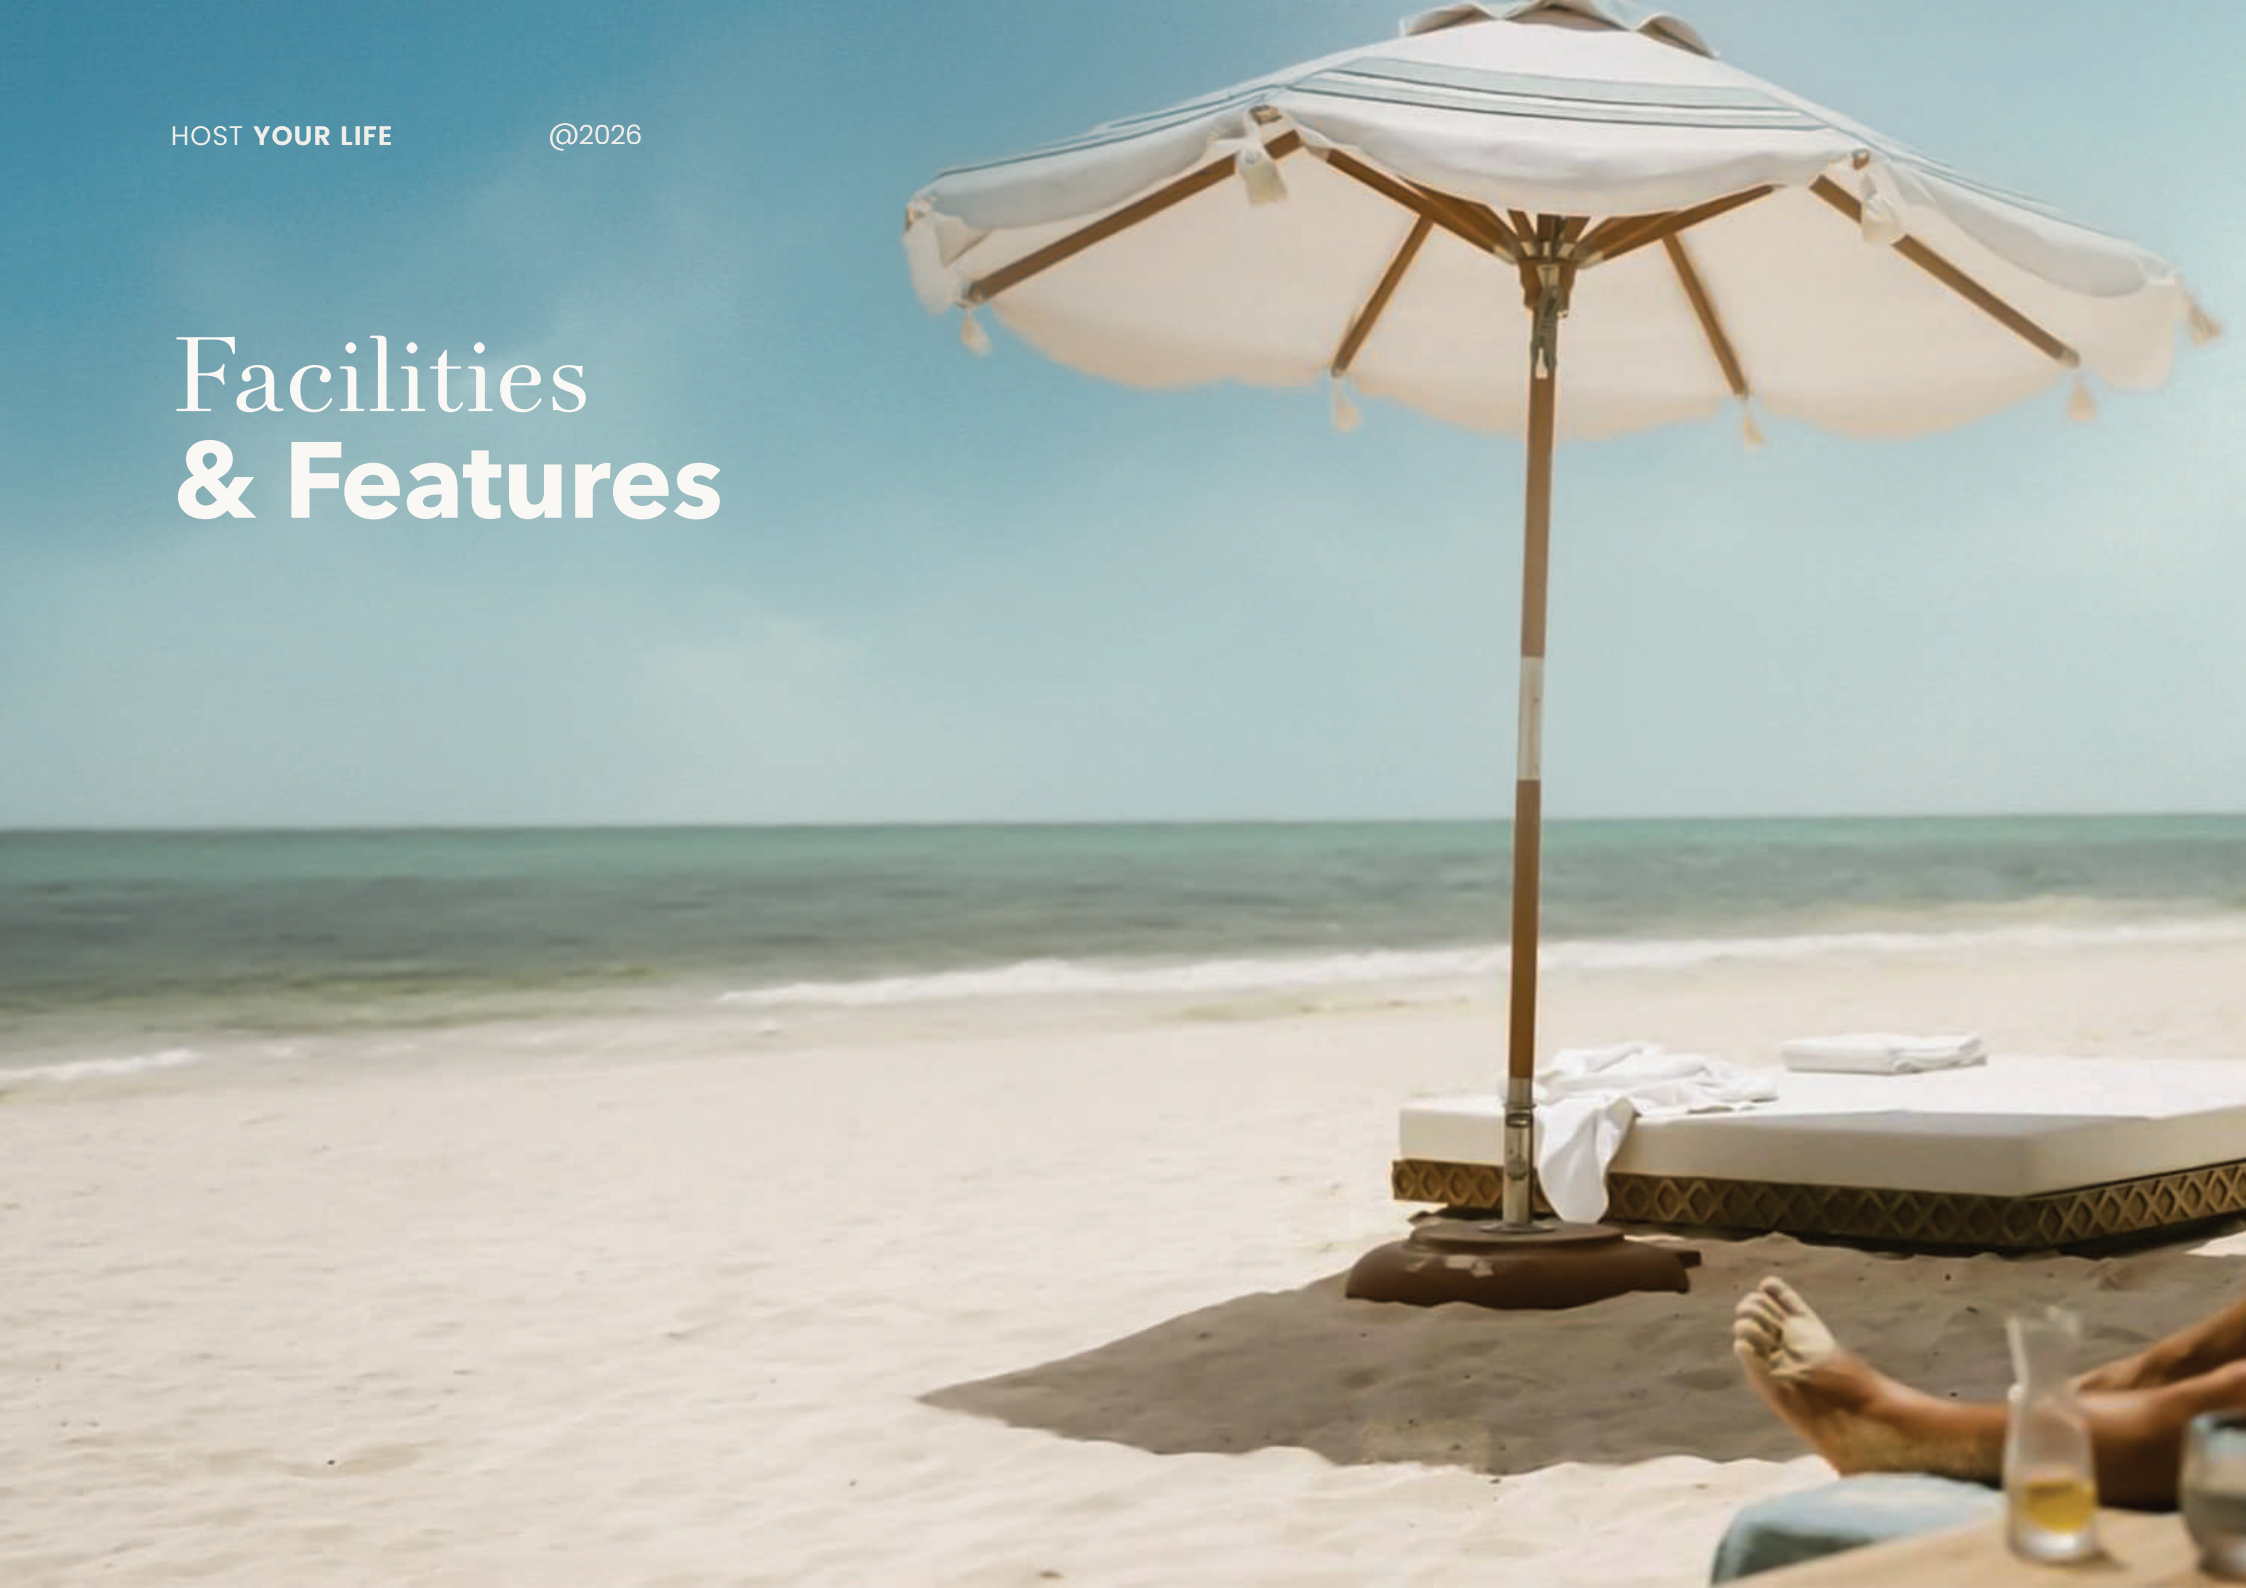

At Crystal Alamein, elegance begins with design but it doesn't end there. It lives in the soft curves of every single detail the architecture, the open balconies, the high end finishes, and the seamless connection to nature.

Here, every corner is crafted with intention, Because elegance isn't just how it looks but how it makes you feel.

Facilities & Features

Private **Beach**

Crystal Alamein offers direct access to a private beach experience shaped by calm, privacy, and uninterrupted coastal beauty. It is a space designed for quiet mornings, golden afternoons, and a more exclusive connection to the sea.

Infinity **Pool**

The infinity pool extends the project's resort atmosphere with open views, refined lounging, and a sense of effortless escape. It brings together leisure, scenery, and elegance in one signature destination.

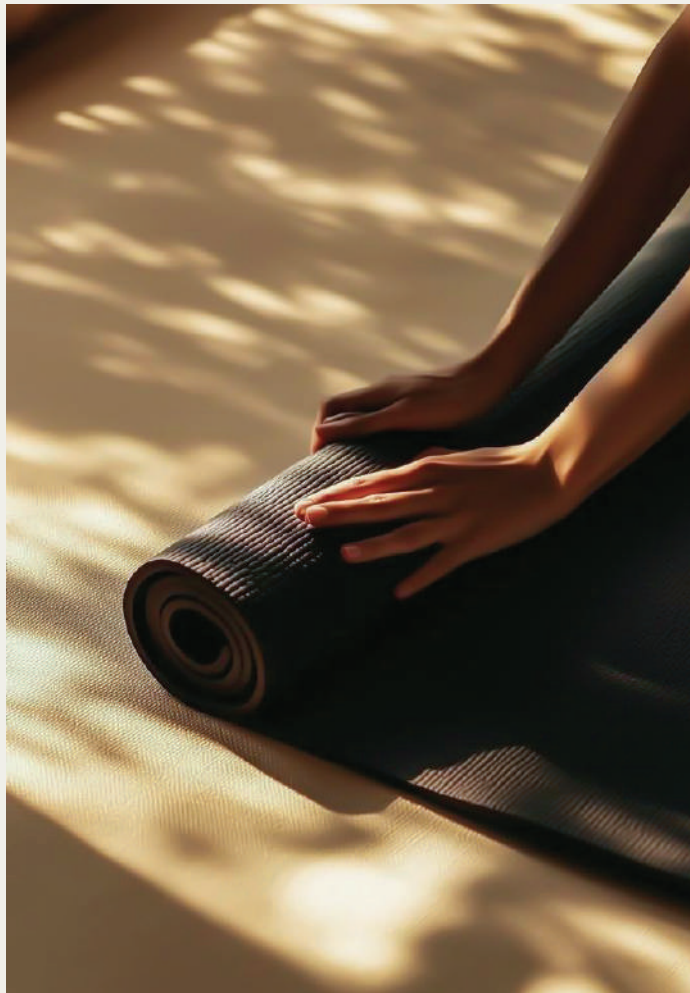

Private **Pool**

Selected private pool experiences add an extra layer of comfort and exclusivity to everyday living. Designed for more personal moments, they create a retreat defined by privacy, ease, and refined relaxation.

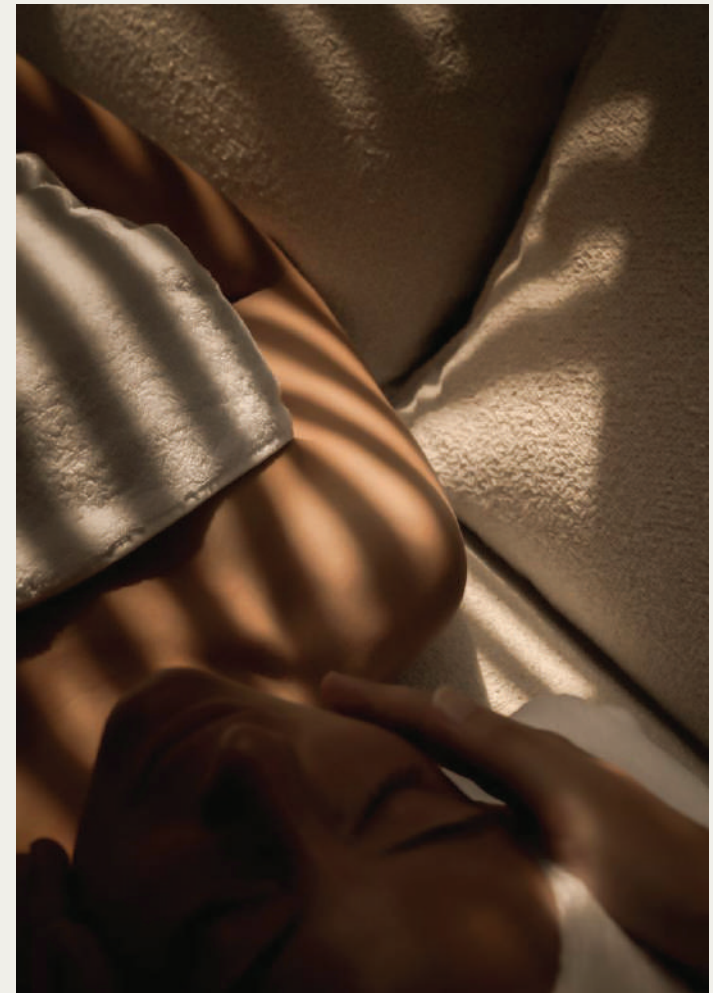

Food **Court**

The food court introduces a lively social layer to Crystal Alamein, offering residents and guests a convenient dining destination within the project itself. It brings together variety, atmosphere, and everyday ease in one connected experience.

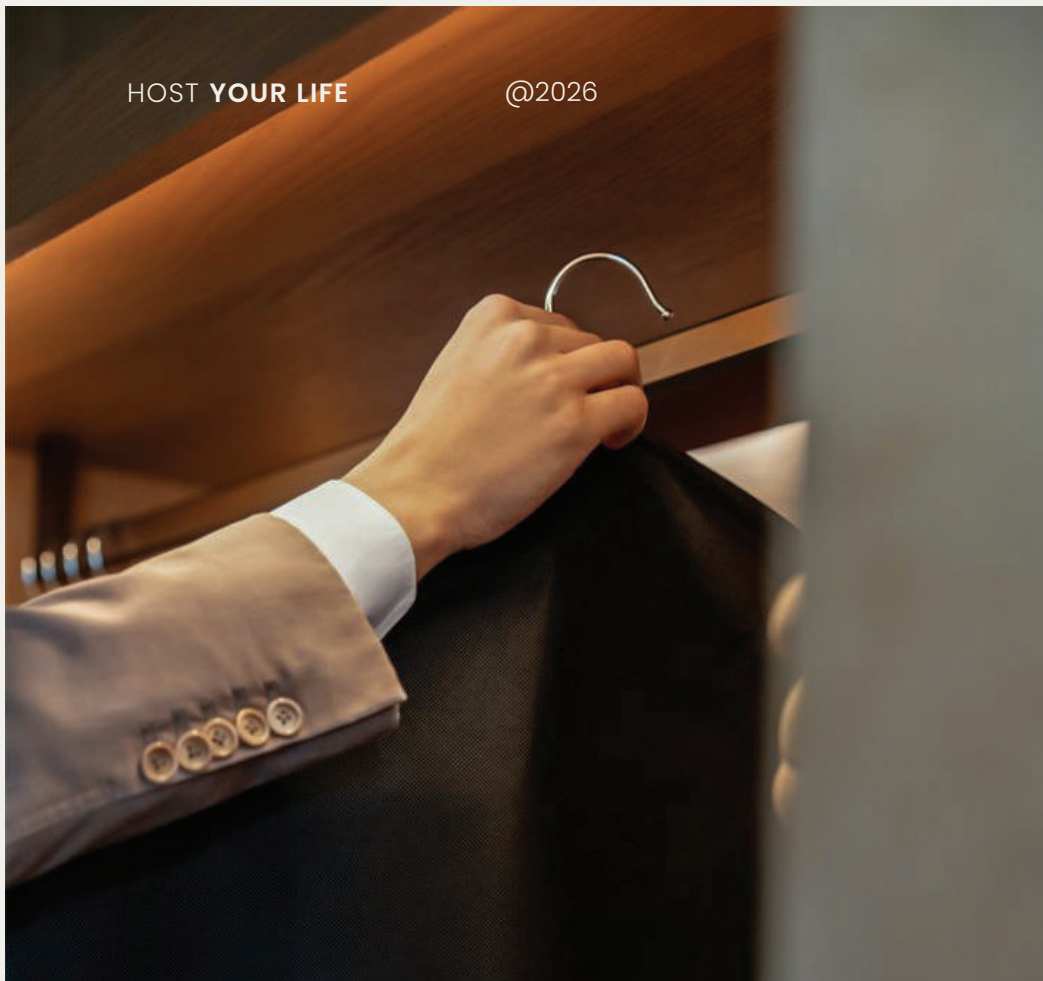

Indoor **Gym**

The indoor gym is designed to support a balanced lifestyle with a space that feels modern, focused, and well integrated into the project's daily rhythm. It adds wellness value to the destination without compromising comfort or privacy.

Luxury **Spa**

The spa experience brings a quieter expression of luxury to Crystal Alamein through moments of rest, restoration, and care. It is designed to complement the project's coastal lifestyle with a more refined sense of wellbeing.

Commercial **Strip**

The commercial strip adds convenience, activity, and lifestyle value to the project through a carefully integrated retail experience. It supports daily needs while enriching the destination with more movement, choice, and vitality.

Paved **Walkway**

Thoughtfully designed walkways create a smoother and more elegant connection across the project. They support a comfortable pedestrian experience while reinforcing the sense of order, beauty, and accessibility throughout Crystal Alamein.

Conference Room

Crystal Alamein includes a refined conference room experience designed to support business meetings, private presentations, and professional gatherings within a premium coastal setting. It adds a practical layer to the destination, allowing work, hosting, and productivity to happen with the same level of comfort and quality found throughout the project.

Luxury Lobby

The lobby at Crystal Alamein is designed as a first impression of the project's character, where elegance, warmth, and attention to detail come together from the moment of arrival. More than a circulation space, it sets the tone for the full experience through refined materials, calm atmosphere, and a welcoming sense of prestige.

Underground **Parking**

Crystal Alamein offers underground parking designed to make daily arrival and movement more seamless, secure, and comfortable. By keeping parking efficiently integrated below the main experience, the project protects its visual elegance above ground while giving residents and guests practical convenience at every step.

Units with **Pools**

Selected units at Crystal Alamein introduce a more private expression of resort living through exclusive pool experiences connected directly to the residence. These units are designed for residents who value privacy, comfort, and a stronger sense of personal retreat within the project's wider coastal lifestyle.

Hospitality **Built Into Everyday Living**

Crystal Alamein goes beyond the idea of a typical resort residence by integrating hospitality thinking into the daily experience.

From the way the project is managed to the quality of shared spaces and the smoothness of the resident journey, hospitality becomes part of how the destination is felt, not just how it is seen.

A Hotel-Managed Standard of Experience

With hotel-management logic embedded into the project vision, Crystal Alamein is designed to deliver more than beautiful architecture and attractive amenities.

It is designed to offer a more seamless experience, where operations, presentation, and shared environments are maintained to a higher standard that supports both lifestyle quality and long-term project value.
